

Intuitive Surgical Increases Share Repurchase Program to \$3.0 Billion

December 13, 2016

SUNNYVALE, Calif., Dec. 13, 2016 (GLOBE NEWSWIRE) -- Intuitive Surgical, Inc. (Nasdaq:ISRG), the industry leader in robotic-assisted surgery, today announced that its Board of Directors has increased the authorized amount available under the Company's share repurchase program to \$3.0 billion.

"We are committed to investing our resources to advance our surgical robotics business," said Marshall L. Mohr, Chief Financial Officer, Intuitive Surgical, Inc. "We also seek to return excess cash to our shareholders responsibly, and this authorization gives us the flexibility to do so."

The timing and total amount of stock repurchases will depend upon market conditions and may be made from time to time in open market purchases, privately negotiated transactions, accelerated share repurchase programs, issuer self-tender offers or otherwise, as determined by the Company's management. The repurchases will be made in compliance with, and at such times as permitted by, federal securities law and may be suspended or discontinued at any time. The repurchase program does not obligate the Company to acquire any particular amount of common stock. The Company expects to fund the repurchase program through cash and investments. As of September 30, 2016, the Company had approximately \$4.6 billion in cash, cash equivalents, and investments.

About Intuitive Surgical, Inc.

Intuitive Surgical, Inc. (NASDAQ:ISRG), headquartered in Sunnyvale, Calif., is the industry leader in robotic-assisted, minimally invasive surgery. Intuitive Surgical develops, manufactures, and markets the *da Vinci* Surgical System.

About the *da Vinci* Surgical System

The *da Vinci* Surgical System is a surgical platform designed to enable complex surgery using a minimally invasive approach. The *da Vinci* Surgical System consists of an ergonomic surgeon console or consoles, a patient-side cart with three or four interactive arms, a high-performance vision system and proprietary *EndoWrist* instruments. Powered by state-of-the-art technology, the *da Vinci* Surgical System is designed to scale, filter, and seamlessly translate the surgeon's hand movements into more precise movements of the *EndoWrist* instruments. The net result is an intuitive interface with improved surgical capabilities. By providing surgeons with superior visualization, enhanced dexterity, greater precision, and ergonomic comfort, the *da Vinci* Surgical System makes it possible for skilled surgeons to perform more minimally invasive procedures involving complex dissection or reconstruction. Surgeons, hospitals, and patients benefit from a large community of users and the Company's robotic-assisted surgical ecosystem, beginning with the robotic platforms, and also including the broad instrument product line, imaging solutions, training programs and technology, clinical validation, field clinical support, field technical support, and program optimization.
